Pullman-Moscow Regional Airport (PUW)
Information on Amendment PFC Application No. 7
Application No. 11-07-C-00-PUW

The City of Pullman, WA is proposing a formal amendment to the above referenced PFC Application. With the information provided herein the intentions are to proceed with this amendment by allowing the Public to comment. The Amendment is proposing the following changes/ increases:

Project 001- Airport Drainage Improvements- The existing approved project was for development of a drainage master plan for the airport and dredging of portions of Airport Creek. Additional dredging of Airport Creek , stormwater detention, new drain lines and catch basins to reduce pounding in the runway safety areas is necessary. The scope of the project has not changed, additional areas have been added and project costs have increased.

	Approved Existing Costs	Amended costs
Total Projoct Costs-	$352,500	$1,152,500
PFC	$ 17,625	$ 57,625

Project 005- Rehabilitate ARFF Building- Additional needs during planning & design phase has increased the ARFF facility from the 1000 sq.foot upgrade to 3,450 sq. foot upgrade of the facility, including 2 additional bays instead of trying to expand the existing bay. Project costs accordingly have increased.

	Approved Existing Costs	Amended Costs
Total Project Cost	$425,000	$1,800,000
PFC	$ 21,250	$ 90,000

The projects approved costs in the original application were based upon estimates, designs have been completed, bids have been taken and ready for construction. The projects are approved AIP eligible projects and waiting for FAA funding. This will be an overall increase of $ 108,750 to Application No. 11-07-C-00-PUW.
